EDUCATION

Lawrence Technological University

Bachelor of Science in Computer Science

Southfield, MI

Aug 2022 – May 2026

- Cumulative GPA: 3.47/4.00 (Cum Laude)
- Dean's List: 4 of 8 Semesters
- All-Academic Team: Men's Volleyball & Esports (5 Awards)

EXPERIENCE

BorgWarner

Auburn Hills, MI

IT Infrastructure Automation Intern

Jun 2025 – Aug 2026

- Develops infrastructure-as-code for Azure using Terraform and Ansible, streamlining provisioning and enabling scalable multi-region deployments
- Builds and maintains cloud automation and CI/CD pipelines using Terraform Cloud, Ansible, GitHub, and Azure, accelerating deployments and reducing costs by 15%
- Implemented automated cloud backup solutions with Terraform and Azure, improving data protection and reducing manual effort by 30% for SQL Servers and PostgreSQL
- Collaborates with global IT teams to standardize cloud automation practices and enhance operational efficiency
- Leads Wiki.js development and authors standardized policies and step-by-step CMDB documentation

The Blue Times Student Newsletter

Southfield, MI

President

Nov 2023 – May 2026

- Compiles monthly reports for LTU while coordinating team meetings and deadlines to ensure consistent publication cycles
- Revamped the newsletter's content strategy and layout, increasing readership and engagement by 100%

Lawrence Technological University

Southfield, MI

Research Assistant

Feb 2025 – May 2026

- Conducts experiments using ROS and LiDAR to study robotic perception and object avoidance under Professor Wisam Bukaita
- Research temporal scans of housing construction sites to analyze progress with Professor Eric Martinson

Social Media Manager

Apr 2025 – Jan 2026

- Created engaging content to promote tournaments, highlights, and milestones for the #1 VALORANT Esports team in WHAC
- Provided live coverage of events across social media, boosting interaction and audience reach by 50%

Team Manager

Sep 2024 – Oct 2025

- Organized 10+ practice drills for the #1 ranked WHAC team and #3 nationally ranked NAIA Men's Volleyball program
- Supported coaching staff by tracking performance statistics and metrics for 30+ athletes using Excel

Student Assistant

May 2025 – Jul 2025

- Assisted 12+ students in designing 3D models using CAD and facilitated the operation of 3D prints to fabricate physical prototypes
- Guided 20+ students in programming Python through coding challenges and robotic simulations

Teaching Assistant

Jan 2025 – May 2025

- Supported 40+ students in understanding concepts of Calculus I & II, including limits, derivatives, integrals, and sequences
- Lead lab sessions introducing statistical analysis and data visualization using R programming on how it compiles and executes

PROJECTS

ROS Mobile Robot

- Developed a ROS mobile robot in C++ and Python, capable of autonomously tracking a blue line using computer vision, and integrated a LiDAR sensor that publishes data for real-time obstacle detection and avoidance for dynamic environments
- Conducted extensive field testing to validate mapping accuracy, path tracking stability, and obstacle response

AI Study Planner

- Developed a web application in Java that generates personalized study schedules for students using AI-driven task prioritization
- Designed and built RESTful APIs in Spring Boot to handle task creation, prioritization, and calendar scheduling logic

Vending Machine Simulator

- Designed a vending machine simulation in C++ with mode locking and password authorization; service and customer modes
- Programmed inventory management of drinks and transaction logic to handle customer payments and calculate change

Simple Mail Transfer Protocol

- Developed a Python SMTP client capable of sending email messages using socket programming and Gmail's SMTP server

TECHNICAL SKILLS

Programming Languages: Terraform, Python, Ansible, C++, C, PowerShell, Java, JavaScript, SQL, R, CSS, HTML

Frameworks & Libraries: React.js, Spring Boot

Databases & Analytics: Microsoft Power BI, PostgreSQL, MySQL

Developer Tools: Microsoft Azure, Terraform Cloud, Red Hat Ansible, Microsoft Office, VS Code, Visual Studio, GitHub, Git, WSL, Linux Ubuntu, ROS Noetic, Wiki.js, VMware

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900)
